EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 19, line 9, "lease" (between "with the at" and "one") has been deleted and replaced with --least--; to correct an apparent typographical error.

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: There is no disclosure or suggestion of a device having all of the limitations of the claims. In particular, each independent claim recites a clipboard comprising a clamping mechanism comprising a holding element, a biasing element and a paper clamp which extends through a slot in the clipboard from the rear of the clipboard to the front. This configuration, best shown in Figures 1 and 7, allows the clamp to hold the paper while covering up less of the paper than a conventional clipboard, as well as providing a clipboard which is less bulky, and does not require screws or rivets to attach the clamping mechanism to the board. These advantages are discussed at pages 1-2 of the specification. Because there is no suggestion in the prior art of an apparatus having all of the claimed features, claims 1-20 are allowed.

Art Unit: 3714

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sullins, Evenson, Zimpleman, Chen, Chang, Chase and Zovar disclose various clipboard devices.
